MINISTRY OF TRANSPORT & COMMUNICATIONS**(Department of Transport—Transport Wing)***New Delhi, the 2nd June 1958*

G.S.R. 464.—In exercise of the powers conferred by sections 4 and 6 of the Madras Outports Landing and Shipping Fees Act, 1885 (Madras Act III of 1885) and in supersession of all previous notifications issued by the Government of India in respect of the Port of Cochin under the said Sections, the Central Government hereby makes the following rules for the Port of Cochin, namely:—

RULES

1. (1) These rules may be called “The Port of Cochin (Landing and Shipping Fees and Wharfage) Rules, 1958”.

- (2) They shall come into force on the 8th July 1958.

2. Landing and shipping fees on goods landed from or shipped into any vessel in the Port of Cochin and wharfage in addition in respect of goods landed at or shipped from the Willingdon Island wharves or the Ernakulam Tanker Berth Jetty

shall be levied in accordance with these Rules at the rates specified in the appropriate schedule appended hereto. The landing and shipping fees and wharfage shall be in addition to any existing charges towards rent for storage of goods in Port lands, quays or Port warehouses or transit sheds.

3. Goods to be placed at appointed places.—All goods intended for shipment or landing within the Port of Cochin shall be placed at such place or places as the Traffic Manager may from time to time by notice affixed to his office appoint.

4. Applications for export & import of goods.—All applications to export or import goods shall be on forms approved by the Port Administration and such forms shall in all cases be correctly filled in and signed by the shipper or consignee of the goods or by his agent. Whenever required by the person authorised by the Traffic Manager to call for and inspect them, all necessary documents shall be produced by shippers or consignees or their agents at the time of the shipping or landing of goods.

5. Assessment how made.—(1) All goods intended for shipping shall be assessed on export application and the shipping fees and wharfage wherever necessary shall be paid before the goods are shipped.

(2) All goods landed within the limits of the Port shall be assessed on import application and the landing fees and wharfage wherever necessary shall be paid before the goods are delivered.

6. Refunds.—(1) (a) Refunds of fees paid on import applications shall be considered only on proof of short landing.

(b) Refunds of fees paid on export applications shall be considered only on proof of short shipment.

(2) No refund of landing or shipping fees shall be made in respect of goods lost overboard or jettisoned within the limits of the Port.

(3) Applications for refund of landing or shipping fees and wharfage paid shall not be considered unless submitted in writing to the Port Authority within six calendar months from the date of first payment. No refund shall be made unless the amount refundable is one rupee or more.

7. Assessment and recovery of compensation for damage.—If any vessel or drift fouls any pier, wharf, jetty or quay in the Port of Cochin and thereby causes damage thereto, the Conservator of the Port shall forthwith take the necessary steps to ascertain the amount of damage so caused. A notice specifying the amount of damage so ascertained and demanding its payment shall be served on the master or owner of the vessel or the owner of the drift. If the damage is caused by a drift and the owner of such drift is unknown or cannot be ascertained, the notice of demand shall be posted upon a conspicuous place in the Cochin Port Office or Customs House. Within a week after the service or of the posting of the notice of the demand, as the case may be, the said amount shall be paid. It shall be lawful for the Conservator to seize the vessel or drift which causes damage, immediately the damage has been caused together with the tackle, apparel or furniture belonging to the vessel, and detain the same till the amount is paid, and if within three days after the expiry of the week fixed for payment specified in the notice, the amount together with the cost of seizure or detention is not paid, the Conservator may sell the vessel or the tackle, apparel or furniture or the drift and out of such sale proceeds pay to the credit of the Port of Cochin the amount of damage and the cost of seizure, detention and sale rendering to the master or owner, the over-plus, if any, on demand, provided that the demand is made within three years from the date of the sale.

8. Method of calculating Landing & Shipping Fees and Wharfage.—(1) Fees will be calculated on the manifested tonnage of the vessel's cargo in the case of Empties, Iron and Steel scrap, Ores and other goods in bulk.

(2) In the case of cargo other than that mentioned in sub rule (1), the charges will be calculated in accordance with the unit of weight, measurement or liquid measure prescribed in the classification against each item of the goods in the Schedule.

(3) Fees will be calculated on the total tonnage of each item of goods. For this purpose, the gross and not the net tonnage of each package as specified in the relative invoice of other shipping document shall be taken, subject to a test-check by the Port Administration at its discretion. In the absence of these documents or in the absence of the specification of gross tonnage therein, the tonnage arrived at by actual test-check shall be taken as the gross tonnage.

(4) In calculating the gross weight of any individual item, fractions are reckoned as under:

Load upto and including $\frac{1}{4}$ ton by weight or measurement	$\frac{1}{4}$ Ton.
Load over $\frac{1}{4}$ ton and upto and including $\frac{1}{2}$ ton by weight or measurement	$\frac{1}{2}$ Ton.
Load over $\frac{1}{2}$ ton and upto and including $\frac{3}{4}$ ton by weight or measurement	$\frac{3}{4}$ Ton.
Load over $\frac{3}{4}$ ton by weight or measurement	1 Ton.

(5) For liquids, other than in bulk, the unit is fixed at 54 gallons, fractions of 54 gallons are treated in the same way as fractions of a ton, the dividing points being fixed at 14, 27 and 40 gallons.

(6) Where alternative units are quoted in the Schedule, the unit which is favourable to the Port Administration will be taken.

(7) Assessment on package containing articles of a miscellaneous character will be made at the rate applicable to the article on which the highest rate is chargeable.

(8) Where marks are indistinguishable and the cargo is landed in bulk or under such conditions that the tonnage is not readily ascertainable,

(i) If landed at the wharf, the tonnage is ascertained by taking the actual measurement and converting it at 50 Cft. to a ton;

(ii) If conveyed by craft from a vessel in stream, the licensed carrying capacity of the craft is taken as the tonnage, a proportionate reduction being made for half loads.

9. Portage at the wharf.—The Port Administration will not portage at the Wharf the underlined items and owners must make their own arrangements for landing them at their expense and risk.

10. Cases where wharfage not recoverable.—(a) Whenever landing or shipping operations are allowed at the Low Wharf on Willingdon Island with the previous written permission of the Traffic Manager to suit the Port's convenience, landing or shipping fees only without wharfage will be recovered on such goods.

(b) In cases where wharf bulk cargo is allowed to be discharged into lighters from vessels berthed at the Willingdon Island wharves or in stream and loaded into wagons through the Boat Train Pier Jetty or the Coal Berth with the previous written permission of the Traffic Manager to suit the Port's convenience, landing fees only without wharfage will be recovered.

NOTE:—The Port will not render any specified services for the loading or landing of cargoes in such cases.
